WASHINGTON.

THE REPLY TO GEN. GARFIELD.

WASHINGTON, April 1.—The Democrats intend to bring up the record of the Republicans in Andrew Johnson's time as part reply to Gen. Garfield's speech.

OHIO POLITICS.

Some Ohio hard money Democrats say the coalition of the Democrats and Greenbackers in that state is likely to carry over some of the hard money Democrats to the Republican party.

DEMOCRATIC CONSISTENCY.

Attention is called to the fact that while the Democratic Senators last week removed the Republican Secretary of the Senate, Gorham, on the charge of partisan activity and in the pretended interest of Civil Service, the Democratic Sergeant-at-Arms of the House, Thompson, is absent in Ohio managing a political convention.

THE NEW GEOLOGICAL SURVEY.

The Senate Committee on Public Lands has voted to report favorably on the nomination of Clarence King as Superintendent of the new Geological Survey, Bureau of the Interior Department. Major Powell has been appointed Director of the National Museum.

THE REFRIGERATING SHIP.

The Senate passed the bill appropriating $200,000 for building a refrigerator vessel and then went into executive session to act upon the remaining nominations of members of the Board of Health, under whose direction the vessel is to be built.

THE HOUSE COMMITTEES.

Recognition of Greenbackers.

WASHINGTON, April 1.—De La Matyr had a long conference with Speaker Randall today. It is understood that the Greenbackers of Democratic proclivities desire to know whether they are to be recognized in the formation of committees, and the Speaker is inclined to give them representation on committees in which they are interested.

If the Speaker can succeed in securing the approval of the Committee on Rules to an enlargement of the leading standing committees and obtain the consent of the House, he can then provide for all members, and relieve himself from present embarrassment. Without this, much dissatisfaction will be created.

RAILROAD ACCIDENTS.

Accident on the New York and Northampton Railroad.

NEW HAVEN, April 1.—The night freight train on the New York and Northampton road met with a singular accident this evening while rounding a curve just above the Water street crossing. Two of the freight cars became separated from the trucks and were thrown across the track, blockading all trains coming from or going east. Shortly after midnight the track was cleared and trains proceeded as usual. The cause of the accident was a misplaced switch.

Smashup on the Eastern Road.

BOSTON, April 1.—At 6 o'clock this morning, as the night express from Bangor, on the Eastern road, with two locomotives, was passing North Beverly, Mass., the forward engine jumped the track, and was shortly followed by the second engine, both being completely wrecked. Two express cars, mail and baggage cars followed, and are a mass of ruins. The Pullman sleeper ran off the track, but did not go down the bank, nor did any of the other cars. None of the employes of the train or passengers were injured. The accident was probably caused by ice in a switch frog. The damage will amount from $25,000 to $30,000. The road was thoroughly blockaded, but will probably be opened by night.

A TRAGEDY IN THE SAN JOSE FOOTHILLS.

No Motive Known for the Crime.

SAN FRANCISCO, April 1.—A San Jose dispatch gives a brief account of a tragedy in the foothills near that city. Four members of a family were horribly mutilated by an axe or similar weapon. The mother of the family is missing. It is not known whether she was killed or escaped to the woods. The family lived in seclusion in a rough habitation. Nothing is known of them previous to coming here a few months ago. No clue to the perpetrators, and no motive is assigned for the deed. The family had no properly to excite cupidity. Nobody is yet arrested.

THE INDIAN TO GO WEST.

A Scheme to Open Indian Territory for Settlement.

NEW YORK, April 1.—The Sun says a vigorous attempt will be made in the present Congress to procure the passage of a bill to throw open the Indian Territory for settlement. A number of Boston capitalists have purchased many thousands shares of stock and bonds of the Missouri, Kansas and Texas Railroad, which will be greatly benefitted by the passage of the proposed act. The bill will provide that United States courts shall be established in the Territory, and that the conditional land grants given to railroads which have lines through the Territory shall revert to the government. The railroads in the Territory are willing to surrender their land grants, if settlers may pre-empt lands in the Territory.

THE PONCHA INDIANS.

The Chiefs Hold an Interview with Gen. Crook.

CHICAGO, April 1.—An Omaha special says the band of Ponchas now here held a council with Gen. Crook. Standing Bear and Buffalo Chips drew a dismal picture of their sufferings, wrongs and misfortune, and protested against being sent south to the Indian territory, but acknowledged that they must obey and go. They only asked that Gen. Crook furnish the money to bury those of their number who must die *en route* of fatigue and unaccustomed heat. Gen. Crook said all their sad story was known in Washington, and all help came from there. He could only furnish them rations for their southward journey. Five Ponchas now here, are already ill.

Preparations for a Walk at Gilmore's Garden in October.

CHICAGO, April 1.—O'Leary tonight says that he has engaged Gilmore's Garden for the whole month of October, and that a six-days' walking match will come off there some time that month, the contestants to run or walk, the winner to have $5000 and the belt, and to challenge Rowell for the Astley belt; the second man, $2000; the third man, $1000; the fourth man, $500. The object is to encourage running in this country.

FROM AFGHANISTAN.

Yakoob Khan to Carry on the War to the Last Extremity.

New York, April 1.—A Tashkend dispatch on the morning of the 30th, says: General Kaufmann received a letter from the chief of the Afghan ambassy, announcing that perfect order reigns in Afghanistan so far as the new Ameer is concerned. Yakoob Khan has decided to carry out the intentions of his father, and will prosecute the war against the English to the last extremity.

RECENT MOVEMENTS OF THE NATIVE TROOPS.

LONDON, April 2.—A dispatch to the Standard from Lahore says though negotiations are not nominally broken off, Yakoob Khan's letter is still unanswered. The Viceroy announces that small forces have been sent to Futehabad and Charbagh in advance of Jellalabod, to overawe the marauding tribes. The Standard's correspondent says he is informed that the people think that the movement is really a demonstration in reply to Yakoob Khan's evasive letter.

It begins to be realized by the Legislature that Massachusetts is behindhand in its denial to women of the right of self-government. Three states already give women the right of noting in school elections, another is in terms permitted to do so under its constitution, five states make them eligible to school offices, and England, a constitutional monarchy, gives woman the right to vote in all municipal elections upon the same terms as men. It is surely time that Massachusetts, which was once foremost in the battle for the principle of no taxation without representation, should step forward into line. The ordinary arguments from the essentially equal capacity of human judgment in woman is reinforced in the case of schools by the strong special reasons for the conferment of the right of suffrage upon the mothers. School administration is largely a matter of detail, and in detail woman is more observant than man. In asking women to take a part in civil responsibilities, the state is not conferring a favor, or merely repairing a long-time injustice. On the contrary, the state itself is the party most likely to be benefited, enlightened and economized in all its methods by the accession of the intelligence, devotion and public spirit of a portion of the community equally gifted in these directions with men.—[Springfield Republican.

WHAT SAVED ENGLISH AGRICULTURE.

No wonder the introduction of artificial fertilizers revolutionized English agriculture. It was at this time that the "anti-corn law league" was established. Free trade in bread-stuffs was demanded. The English farmers, almost to a man, bitterly opposed it. They could not compete with the cheap land of the United States. But in spite of their remonstrance, the duties on foreign grain were removed, and ruin stared the British farmer in the face. Their fears were not imaginary. It did seem impossible for them to pay high rents and compete with the cheap and fertile lands of America. It was artificial fertilizers that saved them. The English farmers raised more root-crops and fed more stock, and the result was an era of unprecedented prosperity. Artificial fertilizers saved the English farmers. More roots, more stock; more stock, more manure; more manure, more wheat. So much for chemical farming.

The same results will follow in this country. We have to compete with the farmers of the West. We can do it in no other way than by the increased use of artificial or chemical fertilizers.

SALAD OIL!
CHOICEST VIRGIN OLIVE OIL.

Caswell, Hazard & Co.,
DRUGGISTS.
132 Thames, corner Church Street,
aug13 NEWPORT, R. I.

EVERY NEWPORTER ABROAD
SHOULD READ
THE NEWPORT JOURNAL.

ARTIFICIAL ASHES.
Made up from the best grades of chemical fertilizers on the basis of leached ashes as sold in the market.
ARTIFICIAL YARD MANURE.
Made of similar materials so as to contain all the elements of plant food and in the same proportions as in stable manure.
Both have been thoroughly tested and with entire success. Being complete manures they are adapted to all lands and all crops. Not an ounce of sand, loam or other refuse is added for adulteration, and the price at which they are sold is not above the cost of the several ingredients when purchased by the single ton. Put up in bags or barrels for $40.00 a ton for the Ashes, and $50.00 for the Yard Manure. At these figures the plant food in one is as cheap as in the other. Further particulars given in answer to inquiries. L. D. DAVIS.
Connanicut Park Farm, Newport, R. I.

APOLLINARIS
NATURAL
MINERAL WATER,
HIGHLY EFFERVESCENT
APPROVED by the Academie de Medecine of France, and its sale in France authorized by special order of the French Government.
Recommended by the highest MEDICAL AUTHORITIES in New York as
"A great relief for seasickness."
"A delightful beverage; mildly antacid, most grateful and refreshing."
"Far superior to Vichy, Seltzer, or any other."
"Absolutely pure and wholesome; superior to all for daily use; free from all the objections urged against Croton and artificially aerated waters.
"Impregnated only with its own gas."
"Healthful and well suited for Dyspepsia and cases of acute disease and where there is a gouty diathesis."
"By far the most agreeable, alone or mixed with wine, useful in Catarrhs of Stomach or Bladder and in Gout."
"Not only a luxury but a necessity."
To be had of all Wine Merchants, Grocers, Druggists and Mineral Water Dealers throughout the United States, and wholesale of
FRED'K DE BARY & CO.,
Nos. 41 AND 43 WARREN STREET, NEW YORK.
Sole Agents for the United States and Canada.
Every genuine bottle bears the registered "YELLOW" pictorial label of the APOLLINARIS COMPANY (LIMITED), LONDON.
my20-MAW.

DEMOCRATIC ADVICE.

A special from Washington to the Boston Transcript says that a prominent New England Democratic politician, who was formerly one of the leaders of his party in Congress, and who was recently in Boston, in a conversation with one of the presidential candidates in the Senate, made the following suggestions as to the policy and duty of the Democrats in both houses of Congress:

First, that they should repeal the test-oath law, and prohibit the use of the army at elections; next, change the statutes regarding the appointment of deputy United States marshals and supervisors of election, so that these officers shall be appointed by the President by and with the consent of the Senate, with a provision that each party shall be represented; pass the appropriation bills without political riders, and let all other business before Congress be disposed of on its merits, either passing or rejecting measures, thereby allowing the calendar to be cleared.

Do this, said he, and then go home and you will carry the country in 1880 by such a sweeping majority as was never known before. Prompt action, and not buncombe speeches, is what the country demands. But if you fail to do this, said he, and permit the party to be ruled and run as it was in the last Congress, as sure as there is a God in heaven the party will be undone, and Grantism will sweep the country and again reign supreme. The country wants rest, and our people want an opportunity to recuperate from the disastrous effects of the rapid shrinkage of values that has gone on for the past few years. They will have it at any cost, and will sacrifice any man or any party to obtain it.

It is very doubtful whether Senator Hayard will be able to convince his Bourbon friends in the Senate and House that this is the proper course to pursue. The trouble is that there are too many candidates for the presidency in the Senate, and each seems to be trimming his course to secure the Southern vote, and to head off and defeat the strong efforts of the Grammercy Park statesman and his friends.

Strange as it may appear, there is not a single Democratic Senator who is heartily in favor of Tilden's renomination. In the House he has considerable strength, which is being manipulated by the Speaker and ex-Senator Barnum of Connecticut. The latter gentleman has been in New York since the adjournment of Congress, and is in daily communication with Speaker Randall and a few confidential friends in the lower house. Hence it may be expected that Mr. Tilden's hand will be seen in the formation of the standing committees of the House.

If the opinions and views of Senators are any indication of public sentiment in the different parts of the country, Thurman is the choice of the vast mass of the Democrats in all sections, and it is believed that he will be the standard bearer of his party in 1880.

THE FUTURE OF MORMONISM.

HOW THE RECENT LEGAL DECISIONS MAY EFFECT THE SALT LAKE SAINTS.

[To the Evening Post.]

I see that part of the eastern press is a little at sea in regard to the effect of recent decisions concerning polygamy. There will be no open defiance. It is difficult to determine yet what will now be the policy of the Mormon Church. I am inclined to think that a large part of the Mormons heartily accept the decision, and are pleased that the act of 1862 is sustained. I have conversed with many persons who have so expressed themselves, and several of them have several wives. There has been no authoritative declaration by the leading men of the church. They are very reticent. Various attempts have been made to interview them, but up to this time with very little success. This silence may result from the uncertainty there is still in the minds of the twelve persons called apostles as to the expedient policy of the future.

This silence seems almost sullen when interpreted by the outspoken defiance we daily hear from the Hotspurs of the uxorious part of the church community. The News and Herald have commented on the opinion with great asperity. They have published many articles which were replete with bitterness and irreverent criticism. It is understood here, too, and openly confessed by Mormons, that plural marriages are frequently entered into at the endowment houses here and at St. George. From all indications I am inclined to the belief that there will be no public declaration by the church; she will not openly and frankly define her position. Those who now sit in her high councils will secretly favor polygamy, cautiously conduct the ceremonies and confine them to safe persons. The church will defend such as are prosecuted, and so glorify the subjects of punishment that the ignominy of penitentiary life will add brilliancy to the crown of martyrdom. The number who will be willing to accept such glory will not be large if the law is vigorously enforced. The pains and penalties and the growing conservatism of influential Mormons will conduce to limit and decrease the evil. It is earnestly hoped that in this way or by some means this execrable feature of Mormonism will cease to be conspicuous, and altogether pass away with the present generation.

S.

Salt Lake City, March 16, 1879.

The game of Lacrosse, which was inaugurated on this coast last season by former residents of Canada, is meeting with considerable favor among lovers of outdoor sport. Already five clubs have been formed on this coast and several more are talked of in this state and Nevada.—[San Francisco Call.

CORN FODDER AND GRASS.

In discussing the question of the comparative value of corn fodder and grass, Prof. L. B. Arnold recently stated that he had taken the milk of three patrons of a cheese factory, in October, who were feeding nothing but grass, and the milk of three others who fed nothing but corn sown broadcast. He took an equal quantity of the milk of each, and curdling it with the same amount of rennet, at the same temperature, found, after drying the curd, that the milk of the corn-fed cows gave eight and one-half per centum of curd, while that fed on grass alone gave only six and one-half per centum of curd; showing a gain of nearly thirty-three per centum in favor of corn fodder over grass. While our best farmers are disposed to increase their grass crops by every possible means, they are also in favor of providing a generous supply of fodder to supplement the pasture during drought.

PERSONALS.

.....Collector John Tibbitts of New London, editor of the Telegram, has gone to the West Indies for his health.

.....On the 5th of April the Inman steamer City of Chester with the Mapleson company on board, will be escorted down the bay by several tugs chartered by Roze and Gerstor admirers.

.....Madame Gerster will go to Italy to recruit immediately on her arrival from abroad, then resume her London engagements, leaving only to sing at Berlin at the Emperor's golden wedding.

.....The late Rev. Dr. DeKoven had a confessional connected with his library in the college building at Racine, where he used to receive the confessions of students. He was extremely "high church" in his views and practice.

.....Mrs. Mary Goodale died near Norwich, Conn., Sunday, aged 103 years, 9 months and 8 days. She was born in Groton. Her first husband, named Howlett, was killed on a man-of-war during the war of 1812, and her second died many years ago.

.....Col. Higginson believes now that it will only be but a short time before Harvard will throw open its doors to both sexes. He thinks that, when a professor comes to hear his female pupils read the same Greek or Latin, or demonstrate the same propositions in mathematics that his college class is studying, he will seriously consider a plan to economize time and labor by instructing both at the same hour.

.....A unique but thoroughly successful entertainment was given by Robert B. Roosevelt at a New York club the other evening. He called it a "pot-luck picnic," and its peculiarity consisted in the fact that all the viands were prepared by ladies and gentlemen present. Mrs. Croly ("Jennie June") made the plum pudding, Mr. Roosevelt himself the fish chowder, Clara Morris the peach custard, Joaquin Miller the coffee, and Mary Kyle Dallas a tutti frutti

BUSINESS NOTICES.

A MATTER OF INTEREST TO TRAVELERS.

Tourists, emigrants and mariners find that Hostetter's Stomach Bitters is a medicinal safeguard against unhealthful influences, upon which they can implicitly rely, since it prevents the effects that an unhealthy climate, vitiated atmosphere, unaccustomed or unwholesome diet, bad water, or other conditions unfavorable to health, would otherwise produce. On long voyages, or journeys by land in latitudes adjacent to the equator, it is especially useful as a preventive of the febrile complaints and disorders of the stomach, liver and bowels, which are apt to attack natives of the temperate zones sojourning or traveling in such regions, and is an excellent protection against the influence of extreme cold, sudden changes of temperature, exposure to damp or extreme fatigue. It not only prevents intermittent and remittent fever, and other diseases of a malarial type, but eradicates them, a fact which has been notorious for years past in North and South America, Mexico, the West Indies, Australia and other countries.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French or English. Sent by mail by addressing with stamp, naming this paper, W. W. Sherar, 149 Power's Block, Rochester, New York. m25-4w

The undersigned has been receiving during the last week a large stock of
CARPETS & OIL CLOTHS,
which he is able to offer at lower prices than has been possible for the last 16 years. He would advise those needing carpets to buy early for there is quite a probability of an advance in prices owing to a scarcity of goods and increased sales made with the present low prices.

THE NEWS
JOB PRINTING OFFICE
Has just received a fine assortment of
NEW AND ELEGANT STYLES OF TYPE,
Which will be used in the most
TASTEFUL AND WORKMANLIKE MANNER,
At Reasonable Prices.

Newport Daily News, and the Newport Journal.

The Newport Daily News is published every afternoon, (Sundays excepted), at the News building, 13 Church street, by Davis & Pitman.

The Newport Journal is published at the same office every Saturday morning and contains a selection of the best matter in the Daily, including editorial discussions of the topics of the week, literary miscellanies and at least one good story, the latest markets and a complete and comprehensive summary of the news,—local and general. The Journal is a large 32 column paper and contains a large amount of reading matter that is valuable to readers in town or country who desire a good Newport paper, but who do not take a daily from this city.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

SUBSCRIPTION RATES.

The Daily News, $6 per annum, or 12 cents a week, payable to carrier.

The Newport Journal will be sent to any address in the United States, postage paid, for $2 a year. A discount of 50 cents is made when the WHOLE YEAR is paid STRICTLY IN ADVANCE.

These terms are invariable.

ADVERTISING RATES.

Ordinary advertisements, $1 a square, for the first insertion, and 25 cents for each continuance. Ten lines, or less, in this type, make a square. Advertisements in reading matter, are charged for, at 50 per cent. extra and are subject to editorial revision. A discount on these rates is allowed on all advertisements ordered in the Daily for one week or longer. Funeral notices 50 cents each. Yearly advertisers are limited to their immediate business and are allowed twenty-five changes a year. The circulations of the News and Journal being necessarily distinct, an advertisement inserted in both papers will reach entirely different sets of readers. As further inducement for advertisers to use both the News and Journal, a liberal discount on the combined rates is made.

PRINTING.

Connected with the News is a large and well appointed job printing office. All orders for work in this department will be promptly filled, and at reasonable prices. The patronage of the public is respectfully solicited.

The Job office has recently been supplied with new type and a new press, especially adapted to fine work. Liberal supplies of choice papers, envelopes and cards, always on hand. Prices as low as possible for first class work.

Newport Daily News.

WEDNESDAY, APRIL 2, 1879.

The Talmage trial is by "common fame" voted a farce.

The name of Geo. C. Mason is looming up as a candidate for Mayor.

The political debate went on in Congress yesterday with full force. It was mostly the case that small men came to the front.

Col. Geo. E. Waring has an admirable article in the current number of the Plumber & Sanitary Engineer on Plumbing Work in Tenement Houses.

Ex-Senator Cameron won in the scandal suit at Washington and the "widow" Oliver must turn to other ways of getting a livelihood. She has become pretty well advertised during the trial.

The refrigerating ship experiment is to be tried, Congress having appropriated $200,000, therefor yesterday. This ship is to be used in disinfecting vessels and cargoes from fever ports.

The Mayor's salary was cut down to $500 last evening. Cheap enough. The effort to reduce the salary of Street Commissioner was not equally successful. One hundred dollars was taken off the pay of the City Marshal.

A new city hall seems to be looming up in the distance. It would be a nice thing to have, no doubt, but we suspect that the needed $40,000 on paper, and $100,000 in fact, will not be voted during these hard times. Such a building will be called for some day, but not yet.

The Boston Journal says of the sixty-one banks of issue and discount in that city, no less than ten will pass their semi-annual dividends, "having lost, rather than made any money." No less than twenty-two will pay but 2 per cent. four 2½ per cent., and thirteen but three per cent. The Shoe and Leather Bank will pass its dividend, the first time in forty-three years.

The Scientific American states that Miss Hosmer has found out by trial that her magnetic motor will not operate, and has abandoned it. Her application for a patent in England was given up after the provisional patent was obtained. A great many people will be sorry to hear that Miss Hosmer had failed where she thought herself so sure of success.

England has undertaken a larger task than she anticipated in attempting the subjugation of the Zulus. The native warriors of the Zulu country are thus far more than a match for their adversaries, and since they feel they are fighting for their rights it is not surprising that they never fought with more bravery. It is possible that a measure of humiliation awaits England in South Africa.

It is to be sincerely hoped that whatever may be done with Thames street, the present cobble stones will not be relaid. It is important that this street should be as comfortable and pleasant as possible. As matters now stand Thames street (like Jordan) is a hard road to travel, and we entreat the city fathers to make it better than it is, or ever has been. It should be kept in mind that the world moves and so should the big cobble stones of Thames street.

Jefferson Davis recently remarked "that the only disturbing elements to be discovered now were the efforts of extremists on both sides to keep alive the animosities and hatreds of the past. If Congress would pursue a moderate course, and attend to its legitimate duties of legislation for the good of the whole country, all the great and industrial questions which were now a source of so much contention would soon settle themselves, and the country would be at peace." This is all very pretty for Jefferson Davis, but it does not tally with his conduct. Still, Jeff. is a much safer man than some of the politicians of his section.

Nothing could be more unfortunate for the Democratic party than the present political debate in Congress. It has brought out the fact that the old secession fires are burning briskly as ever, and that the southern brigadiers have no thought of yielding to the Federal Government as it is. No one can fail to see that it is the battle of the rebellion transferred to Congress. The influence of such developments is seen in the course taken by Prof. Sumner, of Yale College, who went to the support of Mr. Tilden in the last election and who cast in his lot with Mr. Tilden's party. He now announces his disgust of the success of good government in that direction and his return to his old party. The independent voters as a class will be largely influenced in the same direction. Our Democratic brethren are fast throwing away their chances by allowing extreme men to come to the front and by courting a "solid South" made up of such politicians. The country will not trust its interests to a section that has so recently been in arms against its very existence.

THE ELECTION.

Up to two o'clock the election has been proceeding quietly in all parts of the city. About two hundred votes only had been cast, two-thirds of which are for the Republican candidates. There is no regular opposition among the Republicans to the General Assembly ticket, though there is considerable scratching. The Democrats have a ticket in the field and will give it a fair show for the party. Of course there is no doubt as to the result either in the city, or state at large.

NOTES AND COMMENTS.

Sitting Bull's medicine man is about to issue a little pamphlet on the "Treatment of the scalp."—[Burlington Hawkeye.

The political and social Eden of New England is New Fairfield, in Connecticut. The town instead of being in debt has money at interest. Within its limits it has no distillery, no grog-shop, no court house, no jail, no doctor, no lawyer, no constable, no policeman, and only three paupers.

Mrs. Sophronia Morehouse, of Liverpool, N. Y., has given $30,000 to Syracuse University, of which $25,000 go toward the endowment of a professorship. The interest on $5,000 is to be used to aid in the education of young men fitting themselves for the ministry.

MARTHA'S VINEYARD.

The entire property of the Katama Island Company, Martha's Vineyard, comprising about 550 acres of land, with hotel and other buildings, was sold at auction on Wednesday, at an adjourned sale, by the collector of taxes, to the town of Edgartown, to satisfy its claims for taxes assessed for the years 1876 and 1877, together with interest and expenses of notification and sale, amounting in all to about $600, subject to the right of redemption by its former owners at any time within two years, after which, unless redeemed, it becomes town's property. To all appearances at the sale, which was adjourned from time to time in the hope of securing a purchaser, there was no one who had a fatherly care over it, and no one desirous of improving the opportunity of purchasing what was offered under the hammer.

FALL RIVER.

The Evening News says: For the past few days, tramps have begun to be a serious nuisance again in this city, and they seem to be on the road in swarms. The police authorities, however, seem determined not to let the evil get the best of them. Last night, eight of the travelling fraternity presented themselves for lodgings at the Central Station.—Capt. Hunt, after hearing their stories, arrested five of them as vagrants, and this morning Special Justice Reed sentenced each of them to the Bridgewater Workhouse for one year. Judge Blaisdell imposed similar sentences on four others last week, making nine tramps that have been sent to that institution during the past five days.

Hon. H. A. Blood, of Fitchburg, was elected director and president of the Fall River Railroad Company, on Friday, in place of Hon. Wm. J. Rotch, of New Bedford, who has disposed of his entire interest in the road.

KNIVES AND FORKS.

We often laugh at the Chinese and their chop-sticks, or small, thin sticks of wood or ivory, with which they eat, and fancy they must make very dirty work at their meals; yet they are cleanly and civilized compared with the habits of our ancestors some three hundred years ago. Then forks were unknown; each man had his own knife, and at dinner seized the joint with his hand, and cut off what he wished; the dish was then passed on to the next, who did the same. The knife then cut up the portions into small pieces, which were put into the mouth by the fingers of the hand unoccupied by the knife.

In many parts of Spain, at present, drinking glasses, spoons, and forks, are rarities; and in taverns in many countries, particularly in some towns in France, knives are not placed on the table, because it is expected that every person has one of his own, a custom which the French seem to have retained from the old Gauls. But as no person will any longer eat without forks, landlords are obliged to furnish these, together with plates and spoons.

None of the sovereigns of England had forks until the reign of Henry VIII; all, high and low, used their fingers. Hence, in the royal households there was a dignitory called the ewrar, or ewary, who, with a subordinate, attended at the meals with basins, water, and towels. The office of ewary survived after forks came partially into fashion. We learn that when James I. entertained the Spanish Ambassador at dinner, very shortly after his accession, "their Majesties washed their hands with water from the same ewer, the towels being presented to the King by the Lord Treasurer, and to the Queen by the Lord High Admiral." The Prince of Wales had an ewer to himself, which was after him used by the Ambassador.

About the first royal personage in England who is known to have had a fork was Queen Elizabeth; but although several were presented to her, it remains doubtful whether she used them on ordinary occasions. Forks came so slowly into use in England that they were employed by the higher classes at the middle of the seventeenth century. About the period of the revolution, 1668, few English noblemen had more than a dozen forks of silver, along with a few of iron or steel. At length, for general use, steel forks became an article of manufacture at Sheffield; at first they had but two prongs, and it was only in later times that the three-pronged kind were made. As late as the early part of the eighteenth century table forks, and, we may add, knives, were kept on so small a scale by country inns in Scotland (and perhaps in some parts of England) that it was customary for gentlemen travelling to carry with them a portable knife and fork in a shagreen case. The general introduction of silver forks into Great Britain is quite recent. It can be dated no further than the termination of the French war in 1814.

LOCAL AFFAIRS.

—City election two weeks from today.

—Gov. Van Zandt is having a "walk over" at the election.

—The regular Republican Assembly ticket will be elected today.

—The late Mr. Gill was to have been married after Easter.

—An English steamer was at anchor off Beaver Tail yesterday.

—The report of the sinking of a vessel near Mackerel cove is not confirmed.

—The Street Commissioner evidently had more friends last night than the City Marshal.

—Mr. John Harrison, who has been visiting his friends in England, returned home this morning.

—The Father Matthew Total Abstinence Society take possession of the hall in Carry's building May 1st.

—Mayor Bedlow left town today for a two weeks' visit to New York. He will visit Washington before he returns.

—Mr. Geo. J. Campbell will have the sympathy of his friends in his recent bereavement, following so closely the death of his daughter.

—The steamer Providence went to New York last night to go on the dry dock. The Bristol will go on next week. The hulls of both are to be thoroughly examined.

—The steamer Achilles from Providence for Philadelphia, arrived here during the night with her machinery disabled. She has hauled in to the city wharf for repairs.

—The Burnside Guards celebrated their twelfth anniversary by a drill in full dress uniform, followed by an oyster supper, in their armory on Bellevue avenue last evening.

—There will be divine service at Trinity Church this evening at half-past seven o'clock, when it is expected Rev. D. H. Greer of Grace Church, Providence, will preach.

—A funeral in Portsmouth, announced to take place yesterday, was postponed until tomorrow on account of the storm, as it was impossible for the hearse to reach that town. Mr. Langley was obliged to give it up after making two attempts.

—Every bed at the Newport Hospital is now filled. There is need for old cloths, cotton or linen, suitable for bandages or lint, which may be left at the houses of Mr. Ledyard, on Catharine street, and Joseph T. Card, 10 Cannon street, or at the store of Wm. E. Dennis, Broadway.

—Thomas Burlingham, auctioneer, sold at mortgagee's sale today, the "Haight" place at Miantinomah Hill, comprising the dwelling house, outbuildings, and about three and one half acres of land, to Hugh Stevenson for the Real Estate Trust Company, of New York, for $8,540.

—Amateur theatricals are to be given at Masonic hall tomorrow evening by several young ladies and gentlemen for the benefit of the Unitarian Church. Preparations have been in progress for several weeks and a pleasant evening is anticipated. Tickets are on sale at Taylor's drug store.

—A goodly number assembled in Reform club hall last evening to listen to addresses by the speakers who had been announced. Rev. B. D. Peck, Grand Worthy Chief of the Grand Lodge of Rhode Island, made the opening address and was followed by Mrs. L. C. Partington, who spoke on "What is the Secret?" dwelling upon the nature and work of the order of Good Templars. Rev. M. Van Horne acted as chairman for the evening and introduced the speakers with some well chosen remarks. An invitation was given to any persons to join the lodge, the names and fees to be handed to Rev. Mr. Van Horne or to A. J. Bullett.

DECLINES.—We are authorized by Alderman W. B. Sherman to state that he will not be a candidate for re-election as Alderman from the Third Ward at the approaching city election. Mr. Sherman deems it but just to his constituents to notify them at this early day of his determination. He has been an earnest worker in the council and though we have not always agreed with him, we take pleasure in awarding to him the credit of being faithful and honest in all his transactions and laboring for what he considers the best interest of the people.

BLOCK ISLAND BREAKWATER.—A Washington dispatch of March 31st says: The bill introduced today by Senator Burnside, "To authorize the laying of a telegraphic cable from the main land in the state of Rhode Island to Block Island," proposes to appropriate $15,000 for that purpose, to be expended under the direction of the Chief Signal Officer of the army. The measure is introduced in accordance with the recommendations of numerous boards of trade and chambers of commerce of Atlantic coast cities, the cable being designed not only for the ordinary purposes of the signal service, but also for the transmission of marine reports in regard to incoming vessels, &c.

EDUCATION FOR THE KITCHEN.

The next great step must be to do the same thing for the art of cookery; and the friends of genuine social improvement may congratulate themselves that the progress of education is beginning to take effect upon this important department of domestic life. Cooking-schools are springing up in many places in this country and in England, and the English are taking the lead in organizing them as a part of their national and common-school system.

Of the importance, the imperative necessity, of this movement, there cannot be the slightest question. Our kitchens, as is perfectly notorious, are the fortified intrenchments of ignorance, prejudice, irrational habits, rule-of-thumb, and mental vacuity, and the consequence is that the Americans are liable to the reproach of suffering beyond any other people from wasteful, unpalatable, unhealthful, and monotonous cookery. Considering our resources, and the vaunted education and intelligence of American women, this reproach is just. Our kitchens are, in fact, almost abandoned to the control of raw servile menials that pour upon us from various foreign countries. And, what is worse, there is a general acquiescence in these things, as if it were something fated, and relief from it hopeless and impossible. We profess to believe in the potency of education, and are applying it to all other interests and industries excepting only that fundamental art of the preparation and use of food to sustain life, which involves more of economy, enjoyment, health, spirits, and the power of effective labor, than any other subject that is formally studied in the schools. We abound in female seminaries and female colleges, and high schools, and normal schools, supported by burdensome taxes, in which everything under heaven is studied except that practical art which is a daily and vital necessity in all the households of the land. —[Prof. Youmans, in Popular Science Monthly.

THE APTOMMAS TESTIMONIAL.—The testimonial concert given to Mr. Aptommas, the harpist, which was given in Tremont Temple last evening, was a fine artistic success. Mr. Aptommas had to assist him Mrs. E. Humphrey Allen, Miss Ida Welsh, Mr. W. H. Fessenden, Mr. M. W. Whitney, Mr. S. Liebling, pianist, and Mr. T. P. Rydar, accompanist. Mr. Aptommas never played more brilliantly, and was warmly applauded. —[Boston Transcript of Saturday.

CITY COUNCIL.

The regular monthly meeting of the City Council was held last evening. In the Board of Aldermen the Mayor and all the members were present. In the other branch President Franklin was in the chair and all the members in seats except Mr. Carr of the First Ward.

In the Board of Aldermen the following business was transacted.

The application of Wm. B. Hathaway for transfer of liquor license was ordered posted one week.

A license was granted to "Barnum's greatest show on earth" to exhibit here on the 24th of May next on the usual terms.

Tuesday April 8th and Monday May 14th were fixed upon for meetings of the Board of Canvassers to correct and revise the voting lists.

IN CONCURRENCE.—The Finance Committee's report No. 10, was presented in the usual form showing expenditures of $12,782.73 for the month.

The petition of B. F. Downing and others for bell for fire alarm purposes in Second Ward was referred to Committee on Fire Department with request to report at next meeting.

A resolution was passed submitting to the electors a proposition to purchase for a price not exceeding $1000 the estate on the southerly side of Bridge street next east of No. 2 engine house, and to erect a brick building thereon, the total cost not to exceed $6000.

The Committee on Highways made a report through Mr. Barker, chairman, recommending the repairing of Thames street from the north side of the Parade to midway between Church and Frank streets, about 1015 feet, with Asphalt block pavement, at a cost of $7000, which would leave $6,800 of the appropriation for Spring repairs. A resolution to this effect was defeated in the Common Council. It was understood that the old pavement would return to the city about $1000.

A resolution to reset the present cobble stone pavement was called up and passed in the same. This was non-concurred in in the Board of Aldermen, and a committee of conference asked for. Granted. The committee as made up consisted of Aldermen Brown and Sherman, and Councilmen Barker, Sherman and Cottrell.

This committee reported in favor of the Asphalt pavement as far as Mary street, and cobble stone beyond provided it did not cost for the distance, named more than $3000. Defeated in the council by an aye and nay vote. Ayes; Wilbor, Peckham and Cottrell. Noes; Bacheller, Barker, Sherman, Smith, Cranston and Franklin. And so no result was reached on the subject.

It was voted to refund the tax to John Byrnes.

A resolution fixing salaries was introduced. It cuts down that of Mayor to $500 which was adopted. It cut down that of Street Commissioner to $1000, which was changed by amendment to $1100 as before. That of City Treasurer remains at $1000. Supt. of Schools $2000. City Marshal $900 instead of $700 as at present.

A petition from the Charles E. Lawton Post G. A. R., for an appropriation to celebrate "the approaching anniversary to the memory of fallen soldiers of the war of the Rebellion," was presented. Referred to Committee on Finance.

A petition of Michael Adams and others in relation to sewerage on McAllister's Court was referred to Committee on Highways. Another from Wm. E. Tripp and others for repairing Houston avenue took the same course.

A resolution was adopted to suspend the collection of taxes against J. G. Weaver and Sons until next regular meeting they having claims unsettled against the city.

A resolution was passed submitting to the electors a proposition to erect a new City Hall at an expense of $40,000.

A petition from John McCormick and others for improvements on Dearborn street was referred to Committee on Highways.

Wm. J. Swinburne presented a communication revoking any permit he may have given for the extension of the Mary street sewer through his premises. Referred to Committee on Highways.

A petition from Walter S. Sherman, Geo. E. Peckham, R. M. Sherman, Philip Rider and Wm. Henry Taylor for a lease of a portion of Enston's beach was received and referred to Committee on City Property.

A petition to the General Assembly for permission to set apart a portion of the annual appropriations for streets, for sewage purposes, was agreed upon and the same will be presented.

A petition from John H. Cozzens and others for sewer on Mt. Vernon street was referred to Committee on Highways.

A resolution to purchase a safe for the City Treasurer at an expense of $300 was adopted.

The various propositions called forth more than usual of the speaking talent of the City Government and in some instances there were some sharp passages between different members. The session continued until near midnight.

SARDOU AT REHEARSAL.

The following description of Sardou's manner at rehearsal is interesting: The rehearsals of a new play in a Parisian theatre always make a heavy demands on the actor's strength—physical, intellectual and moral—but when the new play is by Victorien Sardou, and the rehearsal goes on under the personal direction of the author, the affair becomes formidable. At ten o'clock A. M., the bell is rung, and all persons concerned with the performance appear on the stage. From the background M. Sardou enters, wrapped up in a huge coat or cloak, whose collar every part of his head which is not protected by his hat, and with a solid campaign-stick in one hand and a bottle of ammonia in the other. All present immediately gather around him, directors, managers, actors, actresses, prompters, etc., asking him how about his neuralgia, reporting some new and wonderful cures of this horrible disease, prophesying a sure change of weather during the day, and administering all possible kinds of consolation. And this great display of kindness really seems to do the suffering author some good; he opens the cloak-collar a little, shows a faint effort of a smile, and advances, nodding, to his easy chair, over which is erected a complete tent, open in front, but excluding even the slightest suspicion of a draught. The position of the furniture is found correct; the actors occupy the places chalked off for them; the rehearsal begins, and for ten minutes everything gets along quite smoothly: the day looks promising. But there is suddenly heard a fearful cry from the tent, a mixture of an ejaculation and a groan, and, as if shot out by a cannon, M. Sardou leaps onward, stick foremost, and with innumerable cushions and comforters dropping from the floating folds of his cloak. An actor has overlooked a comma, which embodies an inspiration, and without which the success of the whole play might be imperilled. Interrupting himself with involuntary groans and sobs, the author explains and explains. By degrees he grows more and more eloquent. The actor understands him, catches up the train, begins to imitate, succeeds, and picking up his cushions and comforters left along the road, the author returns consoled to his tent.—[San Francisco Call.

SOME MOTHER'S CHILD.

This pathetic poem was read by the officiating clergyman, Rev. W. A. Spaulding, upon the occasion of the funeral of the unknown murdered girl at Lynn.

"At home or away, in the alley or street,
Wherever I chance in this wide world to meet
A girl that is thoughtless, or a boy that is wild,
My heart echoes sadly, "'Tis some mother's child.'

"And when I see those o'er whom long years have rolled,
Whose hearts have grown hardened, whose spirits are cold,
Be it woman all fallen, or man all defiled,
A voice whispers sadly, 'Ah! some mother's child.'

"No matter how far from the right she hath strayed;
No matter what inroads dishonor hath made;
No matter what element cankered the pearl—
Though tarnished and sullied, she's some mother's girl.

"No matter how wayward his footsteps have been;
No matter how deep he is sunken in sin;
No matter how low in his standard of joy—
Though guilty and loathsome, he's some mother's boy.

"That head hath been pillowed on tenderest breast;
That form hath been wept o'er, those lips have been pressed;
That soul hath been prayed for in tones sweet and mild;
For her sake, deal gently with some mother's child."

COULD THIS HAPPEN IN BOSTON?

The Boston Journal says that a certain physician in that city, whose practice is almost entirely among the poorer people, has the reputation of driving hard bargains with his patients, and, it is said, always requires them to pay his fee before giving them a prescription. The story is told of him that a short time ago he was called to attend a sick child whose parents lived in a tenement house. On arriving at the house, not wishing to exert himself more than was necessary, he stopped at the foot of the stairs and called, "whose child is sick up there?" "Mine," said the mother, coming to the head of the stairs. "Well, bring me down two dollars," said the doctor. The money was brought, and the doctor then inquired the symptoms, which being told, he said, "Oh, give it a dose of castor oil," and went his way.

A story is told of a very extraordinary ticket a colored voter deposited at the recent election in Mobile. He had been employed by a merchant to take some kerosene oil to the Mobile and Ohio Railroad depot for shipment. He informed the gentleman who employed him that he was going to vote the Democratic ticket,—wouldn't think of voting any other. On his return from the depot he was asked for the receipt for the kerosene oil. Putting his hand in his pocket he pulled out a citizens' ticket. "This isn't the receipt," exclaimed the merchant. "Bless de Lord," was the response, "I done gone an' voted de kerosene oil ticket." "If this intelligence is conveyed to Mr. Blaine," says the Mobile Register, "he will have some reason for saying that Southern elections are inflammatory."

DIED.

TAYLOR—In New York, 31st ult., at his residence, Broadway and 46th street, of typhoid pneumonia, Capt. John Taylor, of this city, aged 56 years.
Relatives and friends of the family are respectfully invited to attend his funeral, on Thursday next, at 2 P. M., from the residence of Capt. J. W. Downing, Fair View Cottage, corner of Malbone avenue and Gibbs street.

ROYAL BAKING POWDER
ABSOLUTELY PURE.
The Royal Baking Powder is a pure Cream of Tartar powder, made from pure Grape Cream Tartar, imported exclusively for this powder direct from the wine district of France. An old experienced housekeeper writes that, although she has to pay a few pennies more for the "Royal," finds that it goes much farther and works much better than saleratus, soda, or cream of tartar.
☞ Most of the Cream of Tartar of commerce is adulterated with Alum, Terra Alba, etc. Doctors pronounce Alum most dangerous to health; its cost but 2c. a pound, Cream of Tartar over 30c. The Royal Baking Powder is recommended for its wholesomeness by such eminent chemists as Dr. Mott, New York; Dr. S. Dana Hayes, Boston. Sold only in cans. All Grocers.
☞ BAKING POWDER should never be sold in paper packages, as it becomes stale and deteriorated upon exposure to the atmosphere.

OGDEN FARM.

In addition to its BUTTER BUSINESS the Ogden Farm is prepared to deliver daily,

ALDERNEY MILK.

Customers desiring it can always have the milk from one and the same cow, and from such an one as they may select from the herd of thoroughbred Jerseys. I shall also deliver daily,

SWEET SKIMMED MILK,

From which the cream has been taken in a COOLEY CREAMER. By this new system the milk has to be set only 12 hours, is totally excluded from all atmospheric impurities, and will retain its sweetness sufficient for all family uses. The choicest butter is now being made by this system, and the milk is fast being adopted for family use.

Artificial Ashes!

THIS FERTILIZER is made up on the basis of good Wood Ashes and contains all the elements of Plant Food that are found in Ashes, and in the same proportions. A thorough trial has shown that its use is equally beneficial and much more economical.

Artificial Yard Manure,

This article is composed of such materials as furnish a mixture containing all the elements found in stable manure and in the same proportions. When it is desired to enrich the soil it is necessary to add certain ingredients such as potash, phosphoric acid, ammonia, soda, magnesia, etc. These are all found in the Artificial on the same basis as in stable manure.

The cost is less than in purchased yard manure and at least twenty per cent. less than in some of the most popular commercial fertilizers. Neither of these articles have an ounce of sand, loam or refuse added for the sake of bulk or weight. Each farmer is left to make his own reduction in strength.

No such articles as dried blood, fish, animal meal, etc., etc., are used to obtain nitrogen as in many other cases.

Good corn was raised last year on light land by the application of $16.00 worth to the acre. It was also used in several Newport gardens, and on numerous lawns with excellent effect.

Were these articles diluted like others sold by weight the price could be made accordingly. With the present strength and purity the Artificial Ashes will cost $40 a ton, and the Artificial Yard Manure $30.00. At these prices the fertilizers come at a less cost than the several ingredients can be bought for by the single ton, were the farmer to mix them himself. Besides, in this case in buying so much at a time, low prices are not only obtained, but the cost of analysis can be afforded by which it is known that the articles used are as represented.

These are complete manures suited to all soils and all crops, which are the only ones that can be used in safety. Partial fertilizers, like fish, may force an immediate crop but are sure to exhaust the land.

For sown crops and seeding nothing can be better than the Artificial Ashes. It is also exactly suited to pastures and meadows. For hoed crops the Artificial Yard Manure is to be preferred.

Orders may be sent to the undersigned at the office of this paper. Terms cash. Circulars sent on application. L. D. DAVIS.

FIRE INSURANCE!

Policies on all descriptions of property issued at short notice and at as low rates as practicable. Persons desiring to effect insurance will find it for their interest to consult the undersigned as to companies and prices. All losses settled at this agency and paid promptly. L. D. DAVIS.

INSURANCE

AGAINST LOSS BY FIRE

CAUSED BY

ACCIDENT, INCENDIARISM, LIGHTNING

Or any Other Cause.

I REPRESENT the oldest company in America, and also the largest company in the United States, together with other standard American and European institutions. The Ætna of Hartford alone has paid over $45,000,000 in losses, and has now $7,000,000 assets in hand.

Insurance in such companies, with ample means, and an established reputation for fair dealing, is worth much more than in any of the numerous weaklings that totter along for a while and then go down. About fifty such companies have failed during the last year, and as many others are on the way to ruin.

The rates in these first-class companies are no higher than in the small and doubtful concerns.

Farm property taken very low for three or five years.

All losses settled at this office. For terms call on, or address by mail the undersigned at the office of this paper. L. D. DAVIS.

Auction Sales.

MORTGAGEE'S SALE.

Will be sold at public auction in front of the State House, on the parade, on Saturday the 12th day of April, A. D. 1879 at ELEVEN o'clock A. M. by virtue of a power of sale contained in a certain mortgage deed made and executed by James B. Tennant and dated the 14th day of November, A. D. 1874 and recorded in personal property mortgages, book No. 3, pages 195 and 196 in the office of the City Clerk of the city of Newport, R. I., the condition of said mortgage deed having been broken,

One LANDAU and one half-top BAROUCHE, both in good order. Can be seen by applying to Charles Spooner, at his market, No. 54 Broadway.

The mortgagee hereby gives notice that he intends to bid at said sale.

By order of Mortgagee,
FRANCIS STANHOPE,
Auctioneer.
NEWPORT, April 1st, 1879. a1-1s

Notices.

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS.

NEWPORT, ss. CITY OF NEWPORT.

WHEREAS, Wednesday, the second day of April, 1879, is by the Constitution and laws of this state, designated as the day for holding the election for General Officers, the qualified electors of this city entitled to vote for General Officers are hereby notified to assemble in ward meetings on the day aforesaid, at half past six o'clock in the morning, at the following-named places:—

IN THE FIRST WARD—At Engine House, No. 2, Bridge street.

IN THE SECOND WARD—At the State House, (lower floor.)

IN THE THIRD WARD—At a store in the front of the Opera House, Touro street.

IN THE FOURTH WARD—At Engine House, No. 8, Prospect Hill street.

IN THE FIFTH WARD—At the Ward Room, Young street.

For the purpose of giving in their votes for Governor, Lieutenant Governor, Secretary of State, Attorney General, General Treasurer; and for one Senator and five Representatives, to represent this city in the General Assembly of this state for the ensuing year; also for election of Warden and Ward Clerk, for each of the several wards in the city, as the law directs.

Said ward meetings according to law will be kept open until half past six o'clock in the evening, and no longer.

Witness my hand, this 18th day of March, A. D., 1879.

WILLIAM G. STEVENS,
City Clerk.

TEACHERS'
EXAMINATION!

THERE WILL BE an examination of candidates for positions as teachers in the Public Schools, Newport, on Saturday, April 5th, in the First Grammar room, Clarke street.

The examination will include papers in arithmetic, grammar, geography, history spelling, methods of teaching, discipline, &c.

The first paper will be given at 10 o'clock A. M.

By order of the Committee on Teachers,
THOS. H. CLARKE,
m28-n4] Supt. of Public Schools.

THE CITY OF NEWPORT.

NOTICE

TO OWNERS OR KEEPERS OF DOGS!

PURSUANT to the requirements of Chapter 83 of the General Statutes of Rhode Island entitled "of Dogs." Notice is hereby given to all owners or keepers of dogs in the city of Newport, of the time and place for issuing the licenses provided for by the following sections of said Chapter 83, viz:—

SEC. 11. Every owner or keeper of a dog, of what age soever, shall annually in the month of April, cause such dog to be registered, numbered, described and licensed, from the first day of the ensuing June, in the office of the clerk of the city or town wherein he resides; and shall cause it to wear a collar around its neck, distinctly marked with its owner's name, and with its registered number; and shall pay to such clerk for such license, one dollar and fifteen cents for a male dog, and five dollars and fifteen cents for a female dog; and all licenses granted under the provisions of this chapter shall be valid in every town during the then current year.

SEC. 12. Every owner or keeper of a dog of what age soever, may, in the month of May in any year, have such dog licensed as aforesaid, upon paying to such clerk two dollars and fifteen cents for a male dog, and six dollars and fifteen cents for a female dog.

SEC. 15. Every person who shall become the owner or possessor of a dog, of what age soever, after the last day of May in each year, and prior to the first day of April following, shall cause the same to be registered, numbered, collared, and licensed, within thirty days after he becomes such owner or possessor, upon the payment of one dollar and fifteen cents for a male dog, and five dollars and fifteen cents for a female dog. Witness:
WILLIAM G. STEVENS,
City Clerk.

WEDNESDAY, APRIL 2, 1879.

PUBLIC LAWS OF RHODE ISLAND.

Passed at the January Session, 1879.

CHAPTER 751.

AN ACT in amendment of Chapter 134 of the General Statutes, "Of Certain Fisheries."

(Passed March 26, 1879.)

It is enacted by the General Assembly as follows:

SECTION 1. There shall be between the first day of May and first day of August, in each year, a weekly closetime, extending from Saturday morning at sunrise to Monday morning at sunrise, during which time no fish of any description shall be taken by weirs, traps or similar contrivances, from the waters covered by a line drawn from Seaconnet Point in a westerly course to the Narragansett lower pier, and including all the waters above said line. If there be any weir, trap, or other stationary contrivances, used for the purpose of catching or obstructing the passage of fish in that part thereof, where the fish are usually taken, the netting at the mouth of the same shall be floated to the surface of the water so as to effectually close the mouth thereof during the weekly closetime; so that during said time the fish may have a free, unobstructed passage, and no device shall be placed in any part of said limits which shall tend to hinder such fish from running up the waters of such river. In case the enclosure where the fish are taken is furnished with a board floor, an opening three feet wide shall be made, extended from the floor to the top of the weir, trap or other contrivances; provided, however that nothing herein shall be so construed as to apply to the shad and herring fisheries in the tributaries of Narragansett Bay.

SEC. 2. The Commissioners of Inland Fisheries shall have a general supervision of all matters relating to the subject contained in the first section of this act, and may make all needful regulations to carry out the provisions described in said section, and shall from time to time, examine all the weirs, traps, or other contrivances, with a view of carrying out such regulations as are most beneficial to the people of the State, and shall prosecute for the violation of such regulations. They may coöperate with the Fish Commissioners of other States, and shall make an annual report to the General Assembly of their doings, with such facts and suggestions in relation to the object for which they are appointed, as they may deem proper. Said Commissioners shall be allowed their actual disbursements made in the execution of this act.

SEC. 3. Every person who shall violate any of the regulations made by said Commissioners, under the authority of the provisions of the preceding sections of this act, or who, between the days mentioned in said first section, shall set any weir, trap, or contrivances, contrary to such provisions, shall upon conviction be fined not exceeding one hundred dollars, or be imprisoned not exceeding three months, or both, in the discretion of the court before whom the offender shall be tried.

SEC. 4. All acts and parts of acts inconsistent with the provisions of this act are repealed.

CHAPTER 752.

An Act in amendment of Section 51 of Chapter 236 of the General Statutes, "of Proceedings in Criminal Cases."

(Passed March 27, 1879.)

It is enacted by the General Assembly as follows:

SECTION 1. Section 51 of Chapter 236, of the General Statutes, is amended so as to read as follows:

"SEC. 51. The General Treasurer shall pay to the city of Providence the actual cost of supporting all children committed for want of recognizance, or convicted before any court of the State, not including the Municipal Court or Police Court of the city of Providence and sent under such commitment or sentence to the Providence Reform School, not computing in such cost, any salary or wages of any superintendent, keeper or instructor employed therein."

SEC. 2. This act shall take effect from and after its passage.

CHAPTER 753.

AN ACT in amendment of Section 1 of Chapter 138 of the General Statutes, "General Provisions for the Protection of Fisheries."

(Passed March 28, 1879.)

It is enacted by the General Assembly as follows:

SECTION 1. Section 1 of Chapter 138 of the General Statutes, is hereby amended by inserting after the words "with fish," in line four of said section, the words, "unless the same be filtered in such manner as may be determined by the Town Council of the town wherein such deposit may be made;" so that said section shall read as follows:

"SECTION 1. Every person who shall throw into or deposit in, or cause to be thrown into or to be deposited in, any of the public tide waters of this State, or upon the shores of any such tide waters, any fish offal, or any water impregnated with fish, unless the same be filtered in such manner as may be determined by the Town Council of the town wherein such deposit may be; and every person who shall cause any deleterious substance resulting from the smelting or manufacture of copper, or from other manufactures, or from other sources, which is destructive to fish, or which repels them from coming into the said public waters, or which shall do anything which tends to drive them therefrom, to be emptied, deposited or run into the said public waters, shall forfeit one hundred dollars."

I certify the foregoing to be true copies.

JOSHUA M. ADDEMAN,
Secretary of State.

J. ROSENBUSH,

Oculist-Optician,

No. 5 Main St., Fall River, Mass.

I take the pleasure to inform my friends and the public of Newport that I am permanently located in Fall River, and would be pleased to have all, in want of proper assistance for the failing and ailing eye to call on me. The distance is short, and I give the assurance, that I shall do my best to make it worth the trouble of the short journey, in coming to see me. Thanking for the kind patronage in the past,

I remain, respectfully,

J. ROSENBUSH,

OCULIST-OPTICIAN,

5 MAIN STREET, Near City Hall,

FALL RIVER, MASS. n25

STEAM HEATING.

THE GAS LIGHT COMPANY have added to their Gas Fitting Department the business of heating buildings by steam. The cost of steam apparatus has hitherto proved a bar to its general introduction; but at present, ordinary houses can be fitted with steam appliances for a small advance on the cost of a furnace. The superior healthfulness of steam heat, its admirable distribution, economy of fuel, and perfect self-regulation are points in its favor, which far outweigh the consideration of a small additional expense for the apparatus. Parties building, or desiring to change their mode of heating, are invited to apply at the office of the company, and obtain estimates of cost. Cellars too low to admit a furnace can have our boiler set up in them.

THE JOURNAL

—IS A—

FIRST-CLASS

Weekly Family Newspaper,

CONTAINING

ALL THE GENERAL NEWS OF THE WEEK,

AMOUNTING TO

Twenty Five Columns of Matter,

Ten to Fifteen Columns

OF WHICH ARE OF

SPECIAL LOCAL INTEREST.

THE CONTENTS

ARE GATHERED FROM THE COLUMNS OF THE

DAILY NEWS.

AND CAREFULLY ARRANGED WITH SPECIAL REGARD TO THE WANTS OF READERS IN CITY OR COUNTRY WHO WANT A

GOOD NEWPORT PAPER

BUT WHO DO NOT TAKE A DAILY FROM THIS CITY.

Let the JOURNAL be compared with any other weekly paper published in the south part of the state and its superiority in the quantity and quality of its contents, particularly in its news departments, will be at once seen. In it are found every week all the minor matters of local news and reports of entertainments, meetings, celebrations, etc., in Newport and vicinity that in fullness and excellence will compare favorably with reports in the papers of larger cities.

We state not so much an opinion as a fact, that will become apparent to any disinterested person who compares it with other papers, when we say that, for all residents of Newport county and all persons who have moved out of the county but wish to keep posted regarding affairs at their old home, the best paper without exception

—IS THE—

NEWPORT JOURNAL.
